# Adapter IDD-FF-001

## Package Contents:

- 1 x Adapter PCB
- 1 x 2-pin 3.5mm screw-terminal-plug
- 1 x 4-pin 3.5mm screw terminal-plug
- 1 x instructions

## Description:

This adapter enables the connection of a digital positioner to the FREQUENZ-400 operator.
Screw terminals on the adapter allow for flexible use on any existing cable, not limited to a particular plug type.

List of supported positioners:

- KOSTAL single-turn positioner (shown below)
- GfA single turn positioner (same pinout as shown below)
- Other digital positioner with the shown signal layout

## Connection:

1. Cable to positioner – positioner pin assignment
2. Place adapter on connector

## System Setup:

Nothing to do.
The system will detect the positioner automatically on power up / system restart.
